2.40 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Section 2.40(b)(2) - Attending veterinarian and adequate veterinary care. Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries.

- There were two animals with cloudy areas on their eyeballs. The owner stated this was a longstanding condition for both animals. The animals were bright, active, and alert. There was no documentation stating that these animals have been examined by a licensed veterinarian. These animals must be examined by a licensed veterinarian and health records must be maintained. Documentation must be maintained for any health related problems and it must include the following information:

- Identity of the animal.
- Descriptions of the illness or injury
- Dates, details, and results of examinations, tests, and other such procedures.
- Dates and other details of all treatments, including the name, dose, route, frequency, and duration of treatment with drugs or other medications.
- Follow-up exams to determine resolution of problem

3.1 (a)

HOUSING FACILITIES, GENERAL.

Section 3.1(a) - Structure/construction. Housing facilities for dogs and cats must be designed and constructed so that they are structurally sound. They must be kept in good repair, and they must protect the animals from injury, contain the animals securely, and restrict other animals from entering.

- There were two enclosures that did not contain the animals and prevent other animals from entering. These two enclosures had an area cut out of the wire in preparation for a door. The area was approximately two feet off the ground and 16 inches square. The applicant stated that she would had doors that she could place on the enclosure. All enclosures must be constructed to contain the animals securely and prevent other animals from entering.

Inspection Report

3.3 (d)

SHELTERED HOUSING FACILITIES.

Section 3.3(d) - Shelter from the elements. Shelter from the elements. Dogs and cats must be provided with adequate shelter from the elements at all times to protect their health and well-being. The shelter structures must be large enough to allow each animal to sit, stand, and lie in a normal manner and to turn about freely.

,- There were three enclosures of the kennel building that did not provide enough indoor shelter for the animals housed in them. These enclosures housed three animals each. There was only room for a maximum of two animals indoors. The applicant must provide more indoor space in the existing enclosures or reduce the number of animals in the enclosures.

3.4 (b) (3)

OUTDOOR HOUSING FACILITIES.

Section 3.4(b)(3) - Shelters in outdoor facilities for dogs or cats must be provided with a wind break and rain break at the entrance.

,- There was one enclosure housing three animals that contained a shelter that did not have a rain break at the entrance. All dogs must be provided with shelter from the elements. The applicant must provide a rain break for the shelter or move the shelter under a structure that blocks the rain.
